

CLARIFYING BOOK PUBLISHER ERRORS

(I am listing only those errors that I think might add significant confusion)

Premarital Sexual Standards in America, 1960, (The Free Press)

- p. 191, line 6, change “not” to “now”
(This error was only in the First Printing of the hardcover edition)

The Social Context of Premarital Sexual Permissiveness, 1967, (Holt, Rinehart and Winston).

- p. 147, Table 9.5: In the three categories in the top portion of the table, the labels are in the wrong order--they should be presented as follows:

Currently Married	18 (1129)
Divorced or Separated	42 (56)
Widowed	14 (99)

The two lower presentations of findings in Table 9.5 are correctly presented.

Contemporary Theories About the Family: Research Based Theories, Vol. 1, 1979, (Co-edited with Burr, Hill, and Nye) (Macmillan).

- p. 18, right hand column, the listing should read:

<u>Non Variables</u>	<u>Variables</u>
Middle-class	Socioeconomic Status
Family	Size of Family
Divorced	Divorce Rate
Premarital Sex	Premarital sexual permissiveness
Happy	Marital Happiness
Crisis	Severity of a crisis

(p. 18 was not corrected in later printings)

- p. 23, right hand column, the diagram under Figure 2.3, containing a circle with lo and hi in it, should be placed under Figure 2.4 at the very bottom of the page. The diagram under Figure 2.4, containing a circle with and S in it, should be under Figure 2.3, just before the start of the paragraph “Some authors...”
(These p. 23 errors were corrected in some later printings.)

Journey Into Sexuality: An Exploratory Voyage, 1986, (Prentice-Hall)

(The corrections below apply only to the first printing of this book.)

- p. 42, footnote 28, 5th line down, cross out the word “low”.
- p. 87, first paragraph 4th line down, replace the word “smaller” with the word “similar”.
- p. 104, at the beginning of the first line of the page add the word “gender” and place a period after it to end the sentence.
Then start a new sentence with the word “Ideology”
- p. 126, last paragraph on the page, fourth line down, drop the word “families” and replace it with “females”.
- p. 206, footnote 51, third line from the bottom of the page in the quotation, change the word “forming” to “harming.”
- p. 217, In proposition 24, the second line, add the word “jealousy” after the word “marital.”
In proposition 25, line one, add the word “marital” before the word “jealousy”.
- p. 222, third line from the top, the last word in the sentence should be changed from “theory” to “therapy.”
- p. 232, (SS)3, in the Title the first word in parentheses should be “Male” not “Make”.
In the second line under SS3 drop the word “either” and replace it with “neither”.
On the third line, drop the word “neither” and replace it with “either”.

I went over all 14 of my books published from 1960 to 2006 and these four were the only books worth listing.
